WELCOME MESSAGE

It is with great honor and pleasure, that we invite you to attend the **“Third International Pediatric Nutrition Meeting”** which will take place on the 3rd and 4th of July 2021 in Paris, France.

During these hard times, it is imperative that we meet in person when it's possible, and virtually when it's not, since meeting is the main cornerstone in building the future.

How does that not apply when our meeting is purely scientific, highly educative, and has one aim: our kids, their health and their future.

Welcoming international professors with hundreds of publications and studies, our speakers are considered pioneers in the field of pediatric nutrition.

We are happy to welcome you from the four corners of the World: Orient and Occident, Middle and Far East, Africa and Europe, and we are looking forward to meeting you in the heart of Europe, in Paris, the land where History, Arts, and Science all combine forces.

We can't wait to see you all and to write, with you, a new chapter in our book of success.
